

MARKING RUBRIC

Assignment 5

Course: CSC354 - Machine Learning

Assessment-based marking guide with evaluation criteria

CLO-2 Apply supervised learning techniques to solve classification problems.

Q1. Which of the following algorithms is a supervised learning technique commonly used for classification problems?

Marking Rubric:

- **Main Concept (14 marks):**
Identifies key concept or principle relevant to the question
- **Correct Terminology (12 marks):**
Uses appropriate technical terms and definitions accurately
- **Clear Explanation (12 marks):**
Provides logical explanation demonstrating understanding
- **Relevant Example (12 marks):**
Includes concrete example or application if applicable

Expected Response:

B

Total: 50 marks

Q2. In a classification problem, what is the role of the target variable?

Marking Rubric:

- **Main Concept (14 marks):**
Identifies key concept or principle relevant to the question
- **Correct Terminology (12 marks):**
Uses appropriate technical terms and definitions accurately
- **Clear Explanation (12 marks):**
Provides logical explanation demonstrating understanding
- **Relevant Example (12 marks):**
Includes concrete example or application if applicable

Expected Response:

B

Total: 50 marks
